

## Bredge™ Learning Management System Features and Benefits

### Content

- Instructors can upload content that utilizes many content types: text, images, sound, video, flash and office documents
- Upload / update SCORM compliant files and courses
- Add, edit, rearrange, show or hide topics in the Table of Contents
- Trainee can add, edit or delete personal study notes and bookmarks on each content page
- Search all content pages by keyword

### Quizzes

- Author questions using text alongside images
- Utilize different question formats:
  - Multiple choice (supporting single or multiple correct answers)
  - Fill in the blanks
  - Match to list
  - True or false
  - Free text essay questions
- Assign different grading points to each question
- Assign an expiry date for each quiz
- Save questions in a Questions Bank for reuse
- Save complete quizzes in Quizzes Database for reuse
- Quizzes are auto-corrected

### Assignments

- Add assignments for trainees to view, download and then submit
- Attach many content types to assignments: text, images, sound, video, flash, and office documents
- Multiple iterations between instructors and trainees

### Glossary

- Add, edit, or delete entries manually or upload them as an xml or text file
- Add entries in any language (displayed in separate sections)
- Import and export glossary in an xml file or formatted text file
- Search glossary by keyword

### Download Center

- Instructors can upload important files of any type for trainees to download

### Forums

- Add new categories, start different forums within each category and add new topics to each forum
- Search forums by keyword

### Chatting and Whiteboard

- Create different chatrooms
- Utilize a whiteboard for online collaboration among trainees and instructors

### Internal email

- Trainees can author plain text or HTML emails to instructors and/or other trainees in their registered courses
- Instructors can author emails to one or more trainees
- Admin can send email to all users

### FAQs

- Add, view and search FAQs by keyword or category
- Trainee can submit a question for the instructor to approve and add to FAQs alongside the answer

### Calendar

- Trainees and instructors can add private events for personal viewing
- Instructors can publish events to be viewed by selected/all users

### Personal homepages

- Trainees, instructors and administrators can create their own online homepages

### News

- News can be added by system administrators for all users to view

### Reports

- Track Pages: view each trainee's first and last login, total hits, and total time spent in each page
- Track Content Pages: view each trainee's total hits, and total time spent in each content page
- Show Distribution: graphical representation of the Track Pages and Track Content Pages reports
- Track Quizzes: View trainees' quiz scores and correct and wrong answers
- Track Assignments: View trainees' assignment status and grades
- Search reports during a specific time span
- Download reports in CSV format
- Print reports

### User Management

- Add, edit, delete and set privileges for users
- Grant different permissions to each user i.e. trainees, instructors, instructor assistants, admin, etc.
- Add, edit, delete and set privileges for user groups (by branch, geographic location, etc.)
- Create a different theme (logos and banners) for each user group

### System Software Requirements

- Server : Windows 2000 / 2003  
Microsoft SQL Server 2000/2005  
Microsoft .NET framework 1.1
- Client : Microsoft Internet Explorer 6.0 or higher
